Virtual DPO

Access a pool of experienced, specialised, senior data privacy professionals

WHY USE OUR V-CISO?

Cyber Management Alliance Ltd offers your business access to experienced senior information security and data privacy professionals via our virtual CISO (V-CISO) and virtual DPO (V-DPO) service.

Our virtual services are specifically designed for organisations that require access to experienced information security and data privacy professionals but due to business constraints, do not require a full-time, permanent resource. Our cost-effective V-CISO service brings experience in leadership and skills to help define, plan and execute a bespoke strategy unique to your organisation.

Our V-CISOs are supported by our compliance and governance team members to ensure we meet all the varying requirements of your business.

TWO OPTIONS

Pay-As-You-Go: pay for the virtual professional on a per hour or per day basis. This can be an onsite or offsite assignment.

Monthly subscription: pay a monthly subscription fee and have regular scheduled access to a virtual professional.

COST-EFFECTIVE ACCESS TO SENIOR EXPERIENCED PROFESSIONALS

	Our V-CISO service	Full time CISO* **
Year 1	£24,000	£90,000 + £16,000 hiring costs
Year 2	£24,000	£95,000
Year 3	£24,000	£100,000

* CISO salary taken from publicly available figures for the year 2015
** Full-time employees require budget considerations for training, holiday and sick leave.
Example is based upon 24 days per annum V-CISO subscription.

- Help your organisation make informed decisions on technology by identifying, assessing and selecting vendors

AMAR SINGH - Head of CISO Trusted Advisory

Amar Singh, CEO and founder of Cyber Management Alliance Ltd, not only leads the virtual services practice but also assists clients as a V-CISO and V-DPO on a regular basis. Amar is:

- A UK government GCHQ-Certified trainer and creator of GCHQ-Certified CIPR (Cyber Incident Planning and Response).
- Experienced cyber, information security and data privacy practitioner. Global Chief information Security Officer and expert in information risk management.
- Mentor and trusted advisor to FTSE 100 firms, startups and incubator funds. Author, writer, industry speaker and presenter.
- V-CISO and trusted advisor to a number of public and private sector organisations including Police Forces, the Health Sector and Hedge Funds in the UK.

“Amar and the team at Cyber Management Alliance have been a huge help in getting our firm positioned to deal with cyber security risk.

Having opened our eyes to the variety and scale of challenges we face, and the potential financial consequences, they worked closely with us to improve our infrastructure, processes and understanding to embed cyber awareness into the firm.

Their invaluable experience has helped us achieve ISO27001 accreditation – a key stamp of approval that lets clients know we take these risks very seriously.”

James C, CEO UK Hedge Fund
